Director of Photography with 15+ years of experience working on documentary, film, TV and corporate projects. Growing up in a house full of cameras, photography and filmmaking have always run in my blood.

I've worked in very diverse environments - from remote towns in Alaska via busy cities like London and New York to abandoned places in Chernobyl. I love working on documentaries, factual TV and emotional film. I'm comfortable working in controlled conditions as well fast paced run-and-gun style productions.

My recent credits include programmes for Netflix, Channel 5, Discovery, History, PBS and UKTV Really.

I shoot across a wide range of digital cinema cameras and currently own a RED Dragon-X and Sony FS7.

I have a clean UK driving license and I am a US I-Visa holder (Expires 2023).
